RE: Berean Preschool in Sierra Vista, AZ

I am writing this letter to express my deepest thanks to Berean Preschool. As an army wife, moving around is not easy especially, when children are involved. I want my children to have nothing but the best education as we move from place to place during my husband's time in the U.S. Army. We came to Sierra Vista, AZ at the end of 2009. I searched many local schools and daycares for my son who was two at the time and finally came across Berean Preschool in 2010. I still remember my daughter telling me, "mommy look there is a sign for a school for Q". That being said, we called and were able to come right in. We met with the staff and they easily took a liking to my son, Quincy. When he began there, he was not fully potty trained at all! The lead teacher Mrs. Tammy [REDACTED] worked with him and in a really short time he became fully potty trained and began to learn so much. I cannot put into words what Berean did for my son. He knows things that not most four year olds know. He knows his alphabet, how to count to 100, all his colors, shapes, and he just talks so mature, and even plays video games better than me. He says things to me like, "mommy did you hear that guy, he is hilarious". My son was born in November and actually missed the cut off to go to kindergarten this August 2012 by exactly two months. My husband and I decided to have him tested by SVPSD; he passed with flying colors, and will be starting kindergarten this year. We were actually told that out of 25 children tested so far that day that he scored the best! I am so proud of our son and honestly if it wasn't for sending our son to a school and not just a daycare for him to play all day this would not be possible. If you want your child to not only have fun but, really learn too then please bring them to Berean Preschool. The staff is supportive, loving, and the hours are very accommodating that they offer free before and aftercare for those parents that do work!

Furthermore, I would really like to talk about one very special person at Berean Preschool. Her name is Mrs. Tammy [REDACTED]. She was the first teacher and person my son came across when he started at the school. She worked with him by teaching him things that children already in kindergarten and even first grade knew. I absolutely love her. She is very smart and patient. She works well with all the children and knows how to brighten their days. I will miss Tammy very much as I came to know her well while my son attended Berean.

Thank you so, so much!!!! We love you and will miss you always!!!

Sincerely,
Mrs. Heather M.
Parent of Quincy M.
XOXO
